LAN-Extender ICY BOX IB-LAN104

The LAN Extender ICY BOX IB-LAN104 provides access to up to four USB drives via LAN cable.

This accomplishment is based on the Windows Rally software which is included in delivery of the ICY BOX IB-LAN104. Windows Rally has to be installed on each computer which is to use the LAN extender. Computers have to work with Windows XP or Vista. Access to the connected drives is limited to one user at a time. Any other user will be informed that access is impossible momentarily. The system recognizes only those data formats which are readable for Windows. EXT2, EXT3 (Linux) and HFS+ (Mac) are not recognized by Windows Rally.

Packing content: 1x RJ-45 cable, 1x CD with Rally Storage Software, 1x power supply, 1x manual
